The Notes other than FinSA Exempt Notes may be publicly offered in Switzerland in accordance with the requirements of the FinSA under this Notes Programme and the Final Terms pertaining to such Notes.

Where Notes are rated, the applicable rating(s), which will not necessarily be the same as the rating applicable to the Notes Programme, will be specified in the relevant Final Terms. In general, Swiss regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency recognized by the Swiss Financial Market Supervisory Authority as published in the FINMA Circular 12/1 “Credit rating agencies” as of 29 June 2001.

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension, change or withdrawal at any time by the assigning rating agency.

RISK FACTORS

Certain capitalised terms used in this section are defined in the Conditions and/or the relevant Final Terms.

Set out in this section is a disclosure of certain risks of which prospective Investors should be aware before making a decision whether or not to invest in the Notes. The following statements are not intended to be exhaustive. Therefore, investment decisions should not be made solely on the basis of the risk warnings set out herein, since such information cannot serve as a substitute for individual advice and information which is tailored to the requirements, objectives, experience, knowledge and circumstances of each prospective Investor.

Prospective Investors in these Notes should be particularly knowledgeable in investment matters and should ensure that they understand the nature of such Notes and the extent of their exposure to risk, that they have sufficient knowledge, experience and access to professional advisers to make their own legal, tax, accounting and financial evaluation of the merits and risks of investment in such Notes and that they consider the suitability of such Notes as an investment in the light of their own circumstances and financial condition.

MARKET RISK FACTORS

In general, prior to maturity, the market value of, and expected return on, the Notes will be influenced by many unpredictable factors.

General Market Risks

Changes in market parameters, including, but not exclusive to, changes in interest, foreign exchange rates, financial instruments, real estate valuations and increases in volatility can increase credit and market risks and may also affect revenues of the Assets.

Concerns about geopolitical developments, commodity prices, and natural disasters, among other things, can affect the global financial markets and investor confidence. Moreover, corporate or other incidents may have a significant effect on the valuation and the revenues of the Assets.

Market Volatility

The European and international financial markets have experienced volatility in the past and been adversely affected by concerns over economic contraction in certain countries, rising government debt levels, credit rating downgrades of governments and risk of default on or restructuring of government debt.

In addition, any natural disasters or widespread health crises or the fear of such crises or other epidemic and/or pandemic diseases can cause further severe stress in the financial system generally and/or may adversely affect countries, including Switzerland, the Issuer and other parties involved in this Notes Programme.

It is difficult to predict the impact of such volatility one or more of the parties or, more generally, economic conditions in Switzerland, any or all of which could have a negative effect on the ability of the Issuer to satisfy its obligations under the Notes and/or the secondary liquidity, if any, of the Notes. Accordingly,

any potential investors should carefully consider how changes to the financial market may affect their investment in the Notes.

International Investments

Investing in different countries may involve different and varying risks. These risks may include: (i) less publicly available information; (ii) varying levels of governmental regulation and supervision; (iii) the difficulty of enforcing legal rights in different jurisdictions and uncertainties as to the status, interpretation and application of laws therein; (iv) risk of economic dislocations in such other country; and (v) the existence of insolvency regimes with substantive and/or procedural rules that materially differ from rules elsewhere, which could give rise to incremental delays in or failures to receive cash flows from assets, or the recapture from investors in assets of amounts of cash payments already received for the benefit of an insolvent company's estate or its unsecured creditors, in circumstances where such a result would not have occurred elsewhere. Moreover, many accounting, auditing and financial reporting standards, practices and requirements vary around the world. In addition, there generally is more governmental supervision and regulation of exchanges, brokers and issuers in some countries than others. Investors should seek their own legal advice and make their own assessment as all risks mentioned above may change rapidly and substantially.

RISK FACTORS RELATING TO THE ASSETS

Credit Risk of counterparties

In certain cases where there is no Assets the security for the Notes may be limited to the claims of the Issuer against the counterparty under an OTC contract agreement, repurchase agreement or other agreements. In such circumstances, investors will be further exposed to the risk of the counterparty.

Realisation of Assets

The Assets will be subject to a variety of risks including, among other risks, credit, liquidity and interest rate risks. In the event of an insolvency of an issuer of any Assets held by the Issuer, various insolvency and related laws applicable to such issuer may (directly or indirectly) limit the amount the Issuer may recover in respect such Assets.

There can be no assurance as to the amount of proceeds of any sale or realisation of such Assets as the market value of such Assets will be affected by a number of factors including the creditworthiness and financial condition of the issuer of the Assets, volatility of financial markets, general economic conditions, domestic and international political events, trends in a particular industry, interest rates, yields and foreign exchange rates, the time remaining to the scheduled maturity of the Assets and the liquidity of the Assets.

The price at which such Assets is sold or realised may therefore be at a substantial discount to the market value of the Assets. This could have a negative effect on the financial position of the Issuer and, therefore, on the Issuer's ability to meet its obligations under the Notes.

Confidential Information

The Issuer or any of its affiliates may have acquired, or may acquire, confidential information or enter into transactions with respect to any Assets and they shall not be under any duty to disclose such

confidential information to any Investor. No investigations, searches or other enquiries have been or will be made by or on behalf of the Issuer in respect of the Assets. No representations or warranties, express or implied, have been given by the Issuer, or any other person on their behalf in respect of the Assets.

Asset Diversification

Although the Issuer intend to acquire Assets from many issuers that are independent of each other, there can be no assurance as to the number of such Assets that will be acquired nor that the Assets acquired by the Issuer will be sufficiently diversified.

Illiquid Assets

The Assets may comprise or include privately placed, unlisted securities or domestic securities or other assets which are not admitted to any trading market and which are not readily realisable.

No deposit protection scheme

The Notes are not bank deposits and an investment in the Notes carries risks that differ from the risk profile of a bank deposit. Therefore, in Event of Default of the Issuer, the investors in the Notes may not receive their investment and may receive zero.

RISK FACTORS RELATION TO THE NOTES

Early Redemption of the Notes

Reasons defined in this Base Prospectus and the Final Terms may lead to Early Redemption of the Notes. In case of Early Redemption, the amount payable per Note to Noteholders in such circumstances should be, unless otherwise specified or in case of an event where the Issuer is unable to fulfil his contractual obligation under the Base Prospectus, the Final terms as well as any other relevant document, an amount equal to the outstanding nominal amount of such Note and the accrued interest on such Note since issuance or last interest rate payment date. The Issuer will fund such payments on the realisation of the Assets. Noteholders are therefore exposed to the market value of the Assets.

Limited liquidity of the Notes

The Notes will not be admitted to trading or listed nor will the Issuer act as or engage a market maker in respect of the Notes. Thus, it is improbable that a secondary market for the Notes will develop, or if a secondary market develops, that it will provide the holders of such Notes with liquidity in respect of its investment or that it will continue for the life of such Notes. As a result, an Investor must be prepared to hold the Notes until the maturity thereof unless otherwise specified in the applicable Final Terms. The Notes may be owned by a relatively small number of Investors and it may be difficult for holders of the Notes to determine the value of the Notes at any particular time unless otherwise specified in the applicable Final Terms. Investors in the Notes may find it difficult or uneconomic to liquidate their investment at any particular time.

The Issuer may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private agreement. Any Notes so purchased may be held or resold or surrendered for cancellation.

Furthermore, the liquidity of such Notes may also be affected by restrictions on offers and sales of such Notes in some jurisdictions.

Transfer restrictions

The Notes may be subject to transfer restrictions. In particular, prospective investors should acknowledge that Non-SIS Notes will not be registered with SIX SIS or a central securities depository. As a consequence, transfers of Non-SIS Notes to accounts held outside of Banca Credinvest Ltd may be subject to additional requirements of the relevant account bank and/or may take longer than with securities that are registered with a central securities depository.

Substitution of the Issuer

The Issuer may at any time, without the consent of the Investor, be substituted by a substitute issuer in accordance with the Conditions. Following such substitution, Investor will become subject to the credit risk of the substitute issuer.

Credit rating

The Notes to be issued under the Notes Programme may receive a credit rating. A credit rating is not a recommendation to buy, sell or hold the Notes and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating, both in respect of the Rating Agency and the type of Note. In the event that any rating is suspended or lowered for any reason, no person or entity is obligated to provide any additional support or overcollateralization with respect to the Issuer.

Interest rate risks

An investment in Notes is subject to interest rate risk on account of fluctuations in the interest to be paid on deposits in the currency of the Notes. This may have effects on the market value of the Notes. Interest rates are determined by various factors of supply and demand in international money markets, which are influenced by economic factors, speculation and interventions by central banks and government authorities or other political factors. Fluctuations in short- or long-term interest rates may therefore influence the value of the Notes.

Inflation risk

The inflation risk is the risk of future money depreciation. The real yield from an investment is reduced by inflation. The higher the rate of inflation, the lower the real yield on the Notes. If the inflation rate over the life of the Securities is equal to or higher than the nominal yield of the Notes, the real yield on the Notes can be zero or even negative.

Currency exchange rate risk

An investment in Notes denominated or payable in a currency other than the currency of the jurisdiction of a particular Investor, entails significant risks that are not associated with a similar investment in Notes denominated and/or payable in the Investor's currency. These risks include, but are not limited to:

- (i) the possibility of significant market changes in rates of exchange between the Investor's currency and the currency in which the Notes are denominated and/or payable;

- (ii) the possibility of significant changes in rates of exchange between the investor's currency and the currency in which the Notes are denominated and/or payable resulting from the official redenomination or revaluation of the currency; and
- (iii) the possibility of the imposition or modification of foreign exchange controls by either the jurisdiction of the purchaser or foreign governments.

No gross up for taxes

If required by law, any payments under the Notes will only be made after deduction of any applicable withholding taxes and other deductions. The Issuer will not be required to gross up payments in respect of such withholding taxes or other deductions for or on account of any present or future taxes, duties or charges of whatever nature.

Purchase of Notes on credit

Investors financing the purchase of the Notes with a loan or loans must be aware that, should their expectations fail to materialize, they would not only have to bear the loss resulting from the investment in the Notes, but also have to pay interest on the loan(s) as well as repay the principal amount of such loan(s). Therefore, Investors must assess their financial situation in advance in order to determine whether they would be able to pay the interest on the loan(s) and/or repay the loan(s) on demand should they incur losses instead of realizing the anticipated profit when investing in the Notes.

RISK FACTORS RELATING TO OTHER PARTIES INVOLVED IN THE NOTES

Reliance on Convexis Ltd

Convexis Ltd may provide critical services under this Notes Programme as Programme Advisor. Therefore, the Noteholders are relying on the services of Convexis Ltd to be provided under the Notes Programme which may be terminated by Convexis Ltd or the Issuer at any time with a notice period of 60 days. A termination of the services by Convexis Ltd could affect the ability of the Issuer to issue further Notes.

Custodian risk

Assets in the form of cash or any transferable securities will be held in an account of, and in the name of the Issuer with the Programme Custody Bank(s). Where the Assets consist of other things than cash or transferable securities (i.e. private placements), it may be held in the name of or under the control of the Programme Custody Bank(s) for the account of the Issuer.

The ability of the Issuer to meet its obligations with respect to the Notes will be dependent upon receipt by the Issuer of payments from the relevant Programme Custody Bank(s).

Consequently, the Investors are relying also on the operational capabilities as well as on the creditworthiness of the relevant Programme Custody Bank(s) engaged by the Issuer for the purpose of holding the Assets.

Paying Agent risk

Any payments made to investors in accordance with the terms and conditions of the Notes will be made by the Paying Agent on behalf of the Issuer. If the Paying Agent, while holding funds for payment to

investors in respect of the Notes, is declared insolvent, the Investors may not receive all (or any part) of any amounts due to them in respect of the Notes from the Paying Agent. While the Issuer will remain liable to Investors in respect of such unpaid amounts, the Issuer will have insufficient assets to make such payments (or any part thereof) and Investors may not receive all, or any part, of any amounts due to them.

Consequently, Investors are relying not only on the creditworthiness of the obligor of the Assets, but also on the creditworthiness of the Paying Agent in respect of the performance of its obligations under the agreement entered into regarding the paying agency services with the Issuer to make payments to Investors.

RISK FACTORS RELATING TO THE ISSUER

Non-reliance on Financial Information of the Issuer

As financial services providers, the business activities of the Issuer are affected by the prevailing market situation. Various risk factors can impair the Issuer's ability to implement business strategies and may have a direct negative impact on earnings. Accordingly, the Issuer's revenues and earnings are subject to fluctuations. The revenues and earnings figures from a specific period thus, are not evidence of sustainable results. They can change from one year to the next and affect the Issuer's ability to achieve their strategic objectives.

General insolvency risks

Each Noteholder bears the general risk that the financial situation of the Issuer could deteriorate.

Noteholders are exposed to the credit risk of the Issuer of the Notes. The Notes constitute unsubordinated and unsecured obligations of the Issuer and rank *pari passu* with each and all other current and future unsubordinated and unsecured obligations of the Issuer. The insolvency of the Issuer may lead to a partial or total loss of the invested capital.

Hedging activities

The Issuer decides in its sole and absolute discretion whether interest rate and currency exchange rate risks or other risks it is exposed to should be hedged fully, partly, or not hedged. To the extent the Issuer decides not to fully hedge such exposure, it assumes such interest rate and currency exchange rate risks or other risks. The Issuer's protection against interest rate and currency exchange rate risk or other risks, if any, further depends, among other things, on the performance of the hedge counterparties under the respective hedge contracts.

Liquidity

Liquidity and liquidity management are of critical importance to the Issuer. Liquidity could be affected by the inability to access the long-term or short-term debt, repurchase or securities lending markets or to enter into credit facilities, whether due to factors specific to the Issuer or to general market conditions. In addition, the amount and timing of contingent events, such as unfunded commitments and guarantees, could adversely affect cash requirements and liquidity.

Operational risks

Operational risk indicates a risk of loss resulting from inadequate or failed internal or outsourced processes, people, infrastructure and technology or from external events. The Issuer seeks to minimize these risks through an effective internal control environment.

In particular, the Issuer may rely on external corporate service providers for the provision of certain administrative and corporate tasks. Any failure by such external third party to provide its corporate services in accordance with its respective agreement with the Issuer could have negative impacts on the functioning of the Issuer and the performance of the Issuer's obligations in relation to the Notes.

In particular, the Issuer continues to be exposed to risks from employee fraud, misconduct, negligence or non-compliance with laws and policies. Such fraud, misconduct and improper practice could involve, for example, fraudulent transactions, the intentional or inadvertent release of confidential client information or failure to follow internal policies and procedures. Such actions by employees may require the Issuer to reimburse clients, pay fines or bear other regulatory sanctions, face the risk of legal action and may damage the Issuer's reputation. It is not always possible to deter employee misconduct and the precautions the Issuer takes to prevent and detect this activity may not always be effective. Such losses and reputational damages could adversely affect the Issuer's business, results of operations and financial condition.

Information security risks

Information security, data confidentiality, data protection and integrity as well as continuous access to systems and data are of critical importance to the Issuer's business. Despite the Issuer's security measures to protect the confidentiality, integrity and availability of systems and information, it is not always possible to anticipate the evolving threat landscape and mitigate all risks to systems and information. The Issuer could also be affected by risks to the systems and information of clients, vendors, service providers, counterparties and other third parties.

If any of the Issuer's systems does not operate properly or are compromised as a result of a threat materializing, the Issuer could be subject to litigation or suffer financial loss not covered by insurance, a disruption of the Issuer's business, liability to the Issuer's clients, regulatory intervention or reputational damage. Any such event could also require the Issuer to expend significant additional resources to modify protective measures or to investigate and remediate vulnerabilities or other exposures, all of which could adversely affect the Issuer's business, results of operations and financial condition.

Legal and regulatory risks

The Issuer is an unregulated entity.

Violation of applicable regulations could result in legal and/or administrative proceedings, which may impose censures, fines, cease-and-desist orders or suspension of a firm, its officers or employees. Supervision of the financial services industry has increased over the past several years, which has led to increased regulatory investigations and litigation against financial services firms.

The trend and scope of increased compliance requirements has increased costs necessary to ensure compliance. The Issuer's reputation is critical in maintaining their relationships with clients, Investors, regulators and the general public and is a key focus in the Issuer's risk management efforts.

The Issuer is or may become involved in a number of judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its business.

Risks relating to enforcement in the UAE

The insolvency laws of the UAE and other local insolvency laws may differ from those of another jurisdiction.

Due to the fact that the Issuer is organized under the laws of the UAE, in the event of bankruptcy or insolvency, insolvency proceedings with respect to the Issuer would most likely be based and governed by the relevant insolvency laws and regulations applicable in the UAE. The insolvency laws of UAE may be less favorable to the interests of the Noteholders as creditors than the bankruptcy laws of another jurisdiction with which the Noteholders may be more familiar, in particular with respect to priority of creditors, ability to obtain post-petition interest and the duration of the insolvency proceedings. The application of these laws and regulations, and any conflict between them, may limit the Noteholders' ability to recover payments due on the Notes to an extent exceeding the limitations arising under other insolvency laws.

There may be difficulty with effecting service of process or enforcing certain judgments on the Issuer.

Any judgment for a definite sum obtained against the Issuer in a foreign court in respect of any sum payable by it under the Notes will, if such a judgment is final and conclusive, constitute a good cause of action for a law suit in the UAE against the Issuer to enforce such judgment without re-litigation or re-examination of the issues if: (i) the foreign court which rendered such judgment had jurisdiction to hear the claim; (ii) the foreign court applied the proper law applicable to the determination of the claim against the Issuer, (iii) the judgment of the foreign court was not rendered in breach of any rule of procedural or substantive public order applicable in the UAE; (iv) the judgment of the foreign court had not been obtained by fraud, or is not upon its face founded in mistake, or irregular and bad by the law of the place where it is awarded; (v) the Issuer has been regularly summoned to attend the proceedings before the foreign court in accordance with the procedures set out in the rules of the foreign court; (vi) the judgment of the foreign court is still valid and capable of execution in the jurisdiction of that foreign court, and (vii) the foreign judgment is duly registered with the relevant authority in the UAE, in circumstances in which its registration is not liable, thereafter, to be set aside. Most of the Issuer directors, officers and other executives are neither residents nor citizens of the Switzerland.

It is possible for investors to effect service of process within the UAE upon such persons or the Issuer provided that the relevant rules of court applicable in the UAE are complied with. There is a risk that a lawsuit based upon Swiss securities laws could not be brought in an original action in the UAE.

Investors may experience difficulties in enforcing foreign judgments in the UAE.

The payments under the Notes are dependent upon the Issuer making payments to investors in the manner contemplated under the Notes, as the case may be. If the Issuer fails to do so, it may be

necessary to bring an action against the Issuer to enforce its obligations and/or to claim damages, as appropriate, which may be costly and time consuming.

The Notes, the Conditions and the applicable transaction documents (the “Documents”) are governed by Swiss law and the parties to such documents have agreed to irrevocably submit to the jurisdiction of the competent courts of the city of Zurich (venue being Zurich 1).

To the extent that the enforcement of remedies must be pursued in the UAE, it should be borne in mind that there is limited scope for self-help remedies under UAE law and that generally enforcement of remedies in the UAE must be pursued through the local courts. Furthermore, under current UAE law, there is a risk that the UAE courts would not enforce a judgment from the courts of the city of Zurich or would re-examine the merits of the claim, and may not observe the choice by the parties of Swiss law as the governing law of the relevant Document. In the UAE courts, foreign law is required to be established as a question of fact and the interpretation of Swiss law by a court in the UAE may not accord with the interpretation from a court of the city of Zurich. In principle, courts in the UAE recognize the choice of foreign law if they are satisfied that an appropriate connection exists between the relevant transaction agreement and the foreign law which has been chosen. They will not, however, honor any provision of foreign law which is contrary to public policy, order or morals in the UAE, or to any mandatory law of, or applicable in, the UAE.

As the UAE judicial system is based on a civil code, judicial precedents in the UAE have no binding effect on subsequent decisions. In addition, there is no formal system of reporting court decisions in the UAE. These factors create greater judicial uncertainty than would be expected in other jurisdictions.

The Issuer has irrevocably agreed that the Documents to which it is a party are governed by Swiss law and that any dispute arising from any Document to which it is a party will be to the jurisdiction of the competent courts of the city of Zurich (venue being Zurich 1), Switzerland.

The New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards 1958 (the “New York Convention”) entered into force in the UAE on 19 November 2006. In the absence of any other multilateral or bilateral enforcement convention, an arbitration award rendered in London should be enforceable in the UAE in accordance with the terms of the New York Convention. Under the New York Convention, the UAE has an obligation to recognize and enforce foreign arbitration awards, unless the party opposing enforcement can prove one of the grounds under Article V of the New York Convention to refuse enforcement, or the UAE courts find that the subject matter of the dispute is not capable of settlement by arbitration or enforcement would be contrary to the public policy of the UAE.

There is no established track record as to how the New York Convention provisions would be interpreted and applied by the UAE courts in practice and whether the UAE courts will enforce a foreign arbitration award in accordance with the New York Convention (or any other multilateral or bilateral enforcement convention). This is reinforced by the lack of a system of binding judicial precedent in the UAE and the independent existence of different Emirates within the UAE, some with their own court systems, whose rulings may have no more than persuasive force cross border. Although there are examples of foreign arbitral awards being enforced in the UAE under the New York Convention, there are other cases where the enforcement of foreign arbitral awards have been refused. Federal Cabinet Resolution No. 57 of

2018 (the "Resolution") also governs the enforcement of foreign arbitral awards in the UAE. The Resolution confirms that arbitral awards issued in a foreign state may be enforced in the UAE and that the conditions for enforcement of foreign arbitral awards set out in the New York Convention shall not be prejudiced by the Resolution. However, there is no established track record as to how the overlapping provisions of the New York Convention and the Resolution will be interpreted and applied by the UAE courts in practice. There is also a risk that, notwithstanding the New York Convention, the Resolution or the terms of any other applicable multilateral or bilateral enforcement convention, the UAE courts may in practice consider and apply the grounds for enforcement of domestic UAE arbitral awards set out in Federal Law No. 6 of 2018 (the "UAE Arbitration Law") to the enforcement of any non-UAE arbitral award. The UAE Arbitration Law and the Resolution are both new and it is unclear how they will be applied by the UAE courts in practice. Accordingly, there is a risk that a non-UAE arbitral award will be refused enforcement by the UAE courts.

In the event that the Issuer fails to perform its obligations under the Documents, the potential remedies available to the Noteholders include obtaining an order for specific enforcement of the relevant obligations or a claim for damages. There is no assurance that a court would order specific enforcement of a contractual obligation, as this is generally a matter for the discretion of the relevant court.

The amount of damages which a court may award in respect of a breach will depend upon a number of possible factors including an obligation on the Noteholders to mitigate any loss arising as a result of the breach. No assurance is provided on the level of damages which a court may award in the event of a failure by the Issuer to perform its obligations as set out in the Notes.

There is limited precedent under UAE bankruptcy law

In the event of the insolvency of the Issuer, the UAE bankruptcy law may adversely affect the ability of the Issuer to perform their obligations in respect of the Note. There is little precedent to predict how a claim on behalf of Noteholders against the Issuer would be resolved in the case of the insolvency of the Issuer (including the approach that would be adopted by a liquidator or analogous insolvency official in respect of any subordination agreed as a matter of contract between the Issuer and any of its creditors).

CONFLICT OF INTERESTS

Conflicts of Interest – Programme Advisor

With regard to recommendations made and advice given on, conflicts of interest may arise. The list below attempts to summarise some of these conflicts but it is not intended to be an exhaustive list of all such potential conflicts.

Subject to the list below and any restrictions adopted by the directors or set out in the constitutional documents thereof, the Programme Advisor, any affiliate of the Programme Advisor and any directors thereof may (i) have an interest in the Issuer or in any transaction effected with or for it, or a relationship of any description with any other person which may involve a potential conflict with their respective duties to the Issuer, and (ii) deal with or otherwise use the services of affiliated companies in connection

with the performance of such duties; and none of them will be liable to account for any profit or remuneration derived from so doing.

Potential conflicts may arise because the Programme Advisor and its affiliates act in various capacities in connection with the Notes Programme and in such capacities may have different interests than those of the Programme Advisor.

Conflicts of Interest – Programme Custody Bank(s)

Programme Custody Bank(s) and/or their affiliates may act in several capacities in connection with the transactions contemplated under the Notes Programme or other related transactions. Such entities, acting in such capacities in connection with such transactions, shall have only the duties and responsibilities expressly agreed to by each of them in their relevant capacities and shall not, by virtue of acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity in the applicable transaction documents. Such entities, in connection with such transactions, may enter into business dealings, including the acquisition of investment securities, from which it may derive revenues and profits in addition to the fees, if any, stated in the applicable transaction documents, without any duty to account for, or to disclose, such revenues and profits. Subject to any provisions or restrictions contained in any of the transaction documents, there are no restrictions on such entities from, amongst other things, acquiring Notes or other securities, providing cash management or other servicing facilities and/or providing investment advice and/or financing to or for third parties. Consequently, actual or potential conflicts of interest may exist or may arise as a consequence of such entities having different roles in such transactions and/or carrying out other transactions for third parties.

Conflicts of Interest – Payment of fees

The Issuer may pay distribution fees and similar considerations to the relevant Programme Custody Bank(s) and other intermediaries offering the Notes to their clients. The amount of such payments depends on the arrangement between the Issuer and the relevant Programme Custody Bank(s) or any other intermediaries.

If and to the extent such a discount, reimbursement, or recurring fees, on the basis of statutory law, would have to be forwarded by the relevant Programme Custody Bank(s) or other intermediary to the Noteholder, each Noteholder hereby takes note and unconditionally waives any right in respect of such fees and accepts that the relevant Programme Custody Bank(s) or other intermediary may retain and keep such fees.

Investors should be aware that such fees may, depending on the circumstances, cause potential conflicts of interests at the relevant Programme Custody Bank(s) or any other relevant intermediary.

TAX CONSIDERATION

Potential Investors should be aware that payments in respect of the Notes, interest or receipts may be subject to withholding or deduction for or on account of tax, including (without limitation) as a consequence of an investor's connection with the jurisdiction of incorporation of the Issuer. In the event of such withholding or deduction, payments will be made net of such withholding or deduction and

investors will not be entitled to any additional amounts in respect of such withholding or deduction and, in certain circumstances, the Notes may be redeemed at their outstanding Redemption Amount (together with any accrued interest). The Notes may also be so redeemed if the Issuer is subject to tax such that it is unable to make the full amount of any payments in respect of the Notes, interest or receipts.

Potential Investors should also be aware that transfers of any Notes or interests or rights in the Notes may be subject to stamp, documentary or other transfer taxes, duties or charges, including (without limitation) in the jurisdiction where the Notes or interests or rights in the Notes are transferred. Transfers of any Notes or interests may not be affected by or on behalf of the Issuer, or any other party involved in such transfers unless such tax, duty or charge is paid or indemnified by the relevant Noteholder. Furthermore, Noteholder should be aware that transfer of Notes can have further implication on taxes that could lead to a different taxation of the Investor.

Prospective Noteholders should also be aware that, in certain circumstances, information and/or documentation relating to Investors, including (without limitation) payments made to Noteholders, may be required to be disclosed to a tax authority by or on behalf of the Issuer.

Furthermore, the possibility of different tax classification of Notes depending on whether the note was issued in the local currency of the jurisdiction of a particular Noteholder or a foreign currency of such a particular Investor. Additional, other properties such as the frequency of interest of the respective Note may lead to another taxation for the particular Noteholder.

Prospective Noteholders should also be aware that any statements as to taxation in this Base Prospectus do not constitute legal or tax advice. Such statements do not cover all aspects of taxation that may be relevant and are based on current tax law and published practice as at the date of this Base Prospectus and as such are subject to change. Investors are advised to consult their own financial advisers on the tax implications of acquiring, holding or disposing of the Notes, interest or receipts.

CERTAIN REGULATORY CONSIDERATIONS

Impact of Increased Regulation

The events since the financial crisis in 2007 have seen increased involvement of governmental and regulatory authorities in the financial sector and in the operation of financial institutions. In particular, governmental and regulatory authorities in a number of jurisdictions have imposed stricter regulatory controls around certain financial activities and/or have indicated that they intend to impose such controls in the future. The United States of America, the European Union, Switzerland are in the process of implementing or have implemented in the last years various reform measures.

Such regulatory changes and the method of their implementation may have a significant impact on the operation of the financial markets. It is uncertain how a changed regulatory environment will affect the financial markets. If there is a change in the regulatory environment, or a financial institution anticipates an imminent change in the regulatory environment, that materially increases or is likely to materially increase (as the case may be) the regulatory burden on a financial institution, financial institution may seek to exercise a right to terminate (if any) the contractual obligation if the contractual obligation provides for such a right of termination.

Risks related to reforms of benchmarks

Benchmarks such as reference rates or interest rates may be affected by regulatory guidance and reform or changes in policy at national, as well as at international level. Some of these reforms are effective while others are still in implementation. These reforms may cause such benchmark to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted.

More generally, the above changes or any other consequential changes to London Interbank Offered Rate (LIBOR), EURIBOR, or any other benchmark as a result of national, international or other proposals for reform, other initiatives or investigations, or any further uncertainty in relation to the timing and manner of implementation of such changes, may have the effect of discouraging market participants from continuing to administer or participate in certain benchmarks, trigger changes in the rules or methodologies used in certain benchmarks or lead to the disappearance of certain Benchmarks. The disappearance of a benchmark or changes in the manner of administration of a benchmark could result in adjustment of valuation of the underlying Assets.

THE ISSUER BELIEVES THAT THE RISKS DESCRIBED ABOVE ARE THE PRINCIPAL RISKS INHERENT IN THE HOLDING OF THE NOTES BUT THE INABILITY OF THE ISSUER TO PAY INTEREST (IF ANY) OR REPAY PRINCIPAL ON THE NOTES MAY OCCUR FOR OTHER REASONS AND THE ISSUER DOES NOT REPRESENT THAT THE ABOVE STATEMENTS OF THE RISKS OF HOLDING NOTES ARE EXHAUSTIVE.

- (ii) if no financial centres are specified for such purpose in the Final Terms, an Applicable Business Day.

(g) *Linear Interpolation*: Where Linear Interpolation is specified in the relevant Final Terms as applicable in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified hereon as applicable), one of which shall be determined as if the Applicable Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Applicable Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for the period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

(h) *Fallbacks for EURIBOR*: The terms specified in, or applicable pursuant to, the relevant sections of the Attachment to the ISDA 2020 IBOR Fallbacks Protocol, as published by the International Swaps and Derivatives Association, Inc. ("ISDA"), shall apply to the determination of the Rate

For these purposes, (i) references in the Attachment to the ISDA 2020 IBOR Fallbacks Protocol to a "Protocol Covered Document" or a "Protocol Covered Confirmation" will be deemed to constitute references to the Notes as documented under these Conditions and the relevant Final Terms and (ii) references in the Attachment to the ISDA 2020 IBOR Fallbacks Protocol to the "IBOR Fallbacks Supplement" will be deemed to have the meaning as defined in the ISDA 2020 IBOR Fallbacks Protocol. Any Rate of Interest determined on this basis shall be subject to a floor of 0%.

- (i) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (j) *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be equal to the product of the Rate of Interest for such Interest Period, the Calculation Amount and the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). For this purpose a "sub-unit" means, in the case of any currency other than Euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of Euro, means one cent.
- (k) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.
- (l) *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, Interest Period and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Issuer and the Paying Agents, and each stock exchange (if any) on which the Notes are then listed as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.
- (m) *Notifications, etc.:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the

Paying Agents, the Noteholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

- (n) *Net Interest Amount*: If any withholding or deduction is imposed under Condition 14 (*Taxation*), the Issuer shall increase the payment of principal or interest to such amount as will result in receipt by the Noteholders of such amount as would have been received by them if no such withholding or deduction had been required (except as provided in Condition 14 (*Taxation*)).

The Issuer is not obligated to provide Noteholders a compensation in form of additional interest rate payments.

11 ADJUSTMENT OF RATE OF INTEREST

- (a) If a Step Up Event or Step Down Event is specified in the relevant Final Terms, the Rate of Interest applicable to the Notes shall be the Rate of Interest at any time determined in accordance with Condition 8 (*Interest on Fixed Rate Note*) or Condition 9 (*Interest on Floating Rate Note*), as the case may be, (the “applicable Rate of Interest”), subject to adjustment in accordance with the Interest Ratchet (each such adjustment, a “Rate Adjustment”). Any Rate Adjustment shall apply in respect of the Interest Period commencing on the Interest Payment Date falling on or immediately following the date of the relevant Step Up Event or Step Down Event, as the case may be, until either a further Rate Adjustment becomes effective or to the Maturity Date, as the case may be.
- (b) The Issuer shall cause each Rate Adjustment to be notified to the Paying Agent and notice thereof to be published in accordance with Condition 20 (*Notices*) as soon as possible after the occurrence of the relevant Step Up Event or Step Down Event, as the case may be, but in no event later than the tenth Business Day thereafter.
- (c) For so long as any Notes (in respect of which a Step Up Event or Step Down Event is specified in the relevant Final Terms) are outstanding, the Issuer shall use its best efforts to maintain the Minimum Rating Requirement, and following a failure to meet the Minimum Rating Requirement, the Issuer shall use its best efforts to procure the reinstatement of the Minimum Rating Requirement as soon as reasonably practicable thereafter.

provided, however, that no such notice of redemption shall be given earlier than:

- (i) where the Notes may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts would be obliged to make such withholding or deduction if a payment in respect of the Notes were then due; or

If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.
- (e) *Redemption at the option of Noteholders*: If the Put Option is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of the holder of any Note redeem such Note on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date. Notes purchased in this manner may be held, resold, or submitted to the Paying Agent for cancellation at the discretion of the Issuer.

USE OF PROCEEDS AND ASSET POOL

Use of Proceeds

The net proceeds of the issue of each Series of Notes issued by the Issuer will be used for its general corporate purposes, including the acquisition of the Asset Pool.

Asset Pool

The Issuer may invest the proceeds of the issue of Notes into assets to be held on accounts of the Issuer (the "Assets"). All Assets held by the Issuer are referred to as the "Asset Pool". The Issuer will not hold separate Asset Pools per Series of Notes. Therefore, the Asset Pool is intended to be held on a commingled basis for all Holders of Notes and repayment of principal and payment of interest on the Notes is not directly derived from the performance of the Asset Pool.

However, the Issuer shall not be obliged at any time to hold an Asset Pool and the Issuer does not provide any legally binding commitment to hold assets of a certain value type, tenor or which otherwise have specified characteristics in order for the Issuer to meet its obligations under the Notes.

Where the Issuer holds an Asset Pool, it intends to hold such Assets according to the terms of a risk framework for purchasing and holding the Assets defined by the Issuer ("Risk Framework Administration Agreement"). In addition, the Issuer may delegate the management of the Asset Pool in accordance with the Risk Framework Administration Agreement to an affiliated party or an external asset manager having the appropriate licenses for providing its asset management services. The Risk Framework Administration Agreement restricts the Asset Pool to the following instruments:

Money Market Instruments: The money market instruments consist of various assets with typically a tenor up to twelve months. This includes account placements (i.e., current, savings, or other money market accounts), call as well as time deposits, Eurodollar deposits, commercial papers, private placements with governments (municipalities) and asset backed placements (i.e., mortgages).

Bonds (public) and long-term private placements: The Issuer is eligible to purchase bonds from various countries in various currencies. The interest rate of bonds and long-term private placements can be either fixed or floating. Bonds can be unsecured, covered by assets and subordinated. Issuers can be either the government of a respective state, an international/supranational organization, or a publicly traded/private entity.

Hedging Instruments: The Issuer can invest into exchange traded and over the counter derivatives for either hedging credit, interest risk or foreign exchange risk.

Credit risk can be hedged with credit default swaps (CDS) or Options on CDSs. Furthermore, the Issuer can purchase a Credit Default Swap on an index (i.e., iTraxx Senior Financials) to diversify his credit risk.

For interest rate risk, the Issuer can enter into Interest Rate Swaps based on Overnight indexed (OIS) or other Rates. Furthermore, it can purchase cap and floor options on interest rates is allowed to enter into interest rate futures transactions.

Currency risk will be hedged with FX Swaps and Cross Currency Swaps. For Cross Currency Swaps this includes beside the standard (floating vs. floating) also fixed vs. fixed and fixed vs. floating.

Additional Instruments: The Issuer can enter into Total Return Swaps (“TRS”), repurchase agreements (“Repo”) or reverse repurchase agreement (“Reverse Repo”). In case the counterparty involved and not the assets involved in the transaction must be eligible based on this framework.

No obligation to hold Asset Pool and no claims by the Noteholders in Asset Pool

The Issuer intends to hold an Asset Pool for the purpose of investing the proceeds of the Notes in its own name and for its own account and for the purpose of meeting its obligations under the Notes and, thus, the performance of the Asset Pool may indirectly affect the Issuer's ability to meet its obligations under the Notes. However, the Issuer shall not be obliged at any time to hold such Asset Pool and the Issuer does not provide any legally binding commitment to hold assets of a certain value type, tenor or which otherwise have specified characteristics in order for the Issuer to meet its obligations under the Notes. Noteholders do not have any direct or indirect claim in the Assets or the Asset Pool. Noteholders only acquire a contractual obligation against the Issuer.

TAXATION

THE TAX LAWS OF THE INVESTOR'S STATE AND OF THE ISSUER'S STATE OF INCORPORATION MIGHT HAVE AN IMPACT ON THE INCOME RECEIVED FROM THE NOTES. PROSPECTIVE PURCHASERS OF NOTES SHOULD CONSULT THEIR OWN TAX ADVISERS AS TO WHICH COUNTRIES' TAX LAWS COULD BE RELEVANT TO ACQUIRING, HOLDING AND DISPOSING OF NOTES AND RECEIVING PAYMENTS OF INTEREST, PRINCIPAL AND/OR OTHER AMOUNTS UNDER THE NOTES AND THE CONSEQUENCES OF SUCH ACTIONS UNDER THE TAX LAWS OF THOSE COUNTRIES.

SWITZERLAND

The following is a summary of certain tax implications under the laws of Switzerland as they may affect investors. It applies only to persons who are beneficial owners of the Notes and may not apply to certain classes of persons. The Issuer makes no representations as to the completeness of the information nor undertakes any liability of whatsoever nature for the tax implications for investors. Potential investors are strongly advised to consult their own professional advisers in light of their particular circumstances.

Swiss Federal Withholding Tax

At present, payment of interest on the Notes and repayment of principal of the Notes are not subject to Swiss federal withholding tax, provided that the Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes. According to a confirmation obtained from the Swiss Federal Tax Administration the payments made from Notes issued by the Issuer, will not be subject to the Swiss federal withholding tax.

Swiss Federal Securities Transfer Tax

The issue and the sale of Notes on the issuance day (primary market transaction) are not subject to Swiss federal securities transfer tax (*Umsatzabgabe*). Secondary market dealings in Notes may be subject to the Swiss federal securities transfer tax at a rate of up to 0.30 per cent. of the purchase price of the Notes, however, only if a securities dealer in Switzerland or Liechtenstein, as defined in the Swiss federal stamp duty act (*Bundesgesetz über die Stempelabgaben*), is a party or acts as an intermediary to the transaction and no exemption applies.

Income Taxation on Principal or Interest

a) Notes Held by Non Swiss Holders

Payments of interest and repayment of principal by the Issuer to, and gain realized on the sale or redemption of Notes by, a holder of Notes who is not a resident of Switzerland and who during the current taxation year has not engaged in a trade or business through a permanent establishment in Switzerland to which such Notes are attributable will not be subject to any Swiss federal, cantonal or communal income tax in respect of such Notes.

b) Notes Held as Private Assets by a Swiss Resident Holder

Individuals who are resident in Switzerland and who hold Notes as private assets are required to include all payments of interest on such Notes in their personal income tax return for the relevant tax period and will be taxable on any net taxable income for such tax period.

In principle, a capital gain, including a gain relating interest accrued realized on the sale or redemption of Notes by such a Swiss resident holder, is a tax free private capital gain, and, conversely, a respective loss on the Note is a non tax deductible private capital loss. Some exceptions are described below.

Notes without a "predominant one-time interest payment": Holders of Notes without a "predominant one-time interest payment" (the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment) who are individuals receiving payments of interest on Notes (either in the form of periodic interest payments or as a one-time interest payment such as an issue discount or a repayment premium) are required to include such payments in their personal income tax return and will be taxable on any net taxable income (including the payments of interest on the Notes) for the relevant tax period. The Holder who receives the one-time interest payment on redemption date is taxed on the whole one-time interest payment irrespective of when he or she purchased the Notes.

Notes with a "predominant one-time interest payment": In the case of Notes with a "predominant one-time interest payment" (the yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments), the periodic interest payments as well as the increase of the value of the bond component during the holding period are taxable. Depending on the Note, the increase of the value of the bond component either equals the positive difference (including any capital and foreign exchange gain) between the amount received upon sale or redemption and the issue price (if the Notes were purchased thereafter, so-called pure differential taxation method). For Notes for which a bond floor is calculated, the increase of the value of the bond floor during the holding period (bond floor at the moment of sale or redemption minus bond floor at the moment of purchase, so-called modified differential taxation method) is taxable.

If the Note is denominated in foreign currency, the sales price or redemption amount as well as the purchase or issue price each have to be converted into Swiss Francs at the prevailing exchange rate at sale or redemption and at purchase. The same applies for the bond floor. Losses realized on the sale of Notes with a "predominant one-time interest payment" may be offset against gains realized within the same tax period on the sale of any Notes with a "predominant one-time interest payment".

c) Notes Held as Swiss Business Assets and by Private Persons Classified as Professional Securities Dealers

Individuals who hold Notes as part of a business in Switzerland and Swiss resident corporate taxpayers and corporate taxpayers resident abroad holding Notes as part of a permanent establishment in Switzerland, are required to recognize the payments of interest and any gain realized on the sale or redemption of such Notes (including a gain relating to interest accrued) and any loss on such Notes in their income statement for the respective tax period and will be taxable on any net taxable earnings for such period. The same taxation treatment also applies to Swiss resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, inter alia, frequent dealings and leveraged investments in securities.

Wealth Taxation of Notes held by Swiss Resident Individuals

The market value of Notes may be subject to wealth tax levied on the overall net wealth of Swiss resident individuals, regardless of whether the instruments are held as part of the Investor's private or business assets.

International Automatic Exchange of Information in Tax Matters

On 19 November 2014, Switzerland signed the Multilateral Competent Authority Agreement. Such Multilateral Competent Authority Agreement is based on article 6 of the Organisation for Economic Cooperation and Development/Council of Europe administrative assistance convention and is intended to ensure the uniform implementation of Automatic Exchange of Information ("AEOI"). The Federal Act on the International Automatic Exchange of Information in Tax Matters ("AEOI Act") entered into force on 1 January 2017. The AEOI Act is the legal basis for the implementation of the AEOI standard in Switzerland.

The AEOI is being introduced in Switzerland through bilateral agreements or multilateral agreements. The agreements have, and will be, concluded on the basis of guaranteed reciprocity, compliance with the principle of specialty (i.e., the information exchanged may only be used to assess and levy taxes (and for criminal tax proceedings)) and adequate data protection. An up-to-date list of the AEOI agreements of Switzerland in effect or signed and becoming effective, including the dates of commencement of data collection and data exchange, can be found on the website of the State Secretariat for International Financial Matters SIF at www.sif.admin.ch.

Based on such multilateral and bilateral agreements and the implementation of Swiss law, Switzerland collects and exchanges data in respect of financial assets, including, as the case may be, the Notes, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in a European Union member state or in a treaty state.

DUBAI INTERNATIONAL FINANCIAL CENTRE

Pursuant to Article 14 of Law No. (9) of 2004 in respect of the Dubai International Financial Centre (the "DIFC Law"), entities licensed, registered or otherwise authorized to carry on financial services in the DIFC and their employees shall be subject to a zero rate of tax for a period of 50 years from 13 September 2004. This zero rate of tax applies to income, corporation and capital gains tax. In addition, this zero rate of tax will also extend to repatriation of capital and to transfers of assets or profits or salaries to any party outside the DIFC. Article 14 of the DIFC Law also provides that it is possible to renew the 50-year period to a similar period upon issuance of a resolution by the Ruler of the Emirate of Dubai. As a result no payments by the Issuer under the Notes are subject to any DIFC tax, whether by withholding or otherwise.

Intergovernmental Agreement between the UAE and the United States

The United States Hiring Incentives to Restore Employment Act resulted in the introduction of legislation in the United States known as the Foreign Account Tax Compliance Act ("FATCA"). Under FATCA, a 30 per cent. withholding tax may be imposed on payments of United States source income and certain payments of proceeds from the sale of property that could give rise to United States source income,

unless the Issuer complies with requirements to report on an annual basis the identity of, and certain other information about, direct and indirect United States holders of the Notes issued by the Issuer to the United States Internal Revenue Service (“IRS”) or to the relevant UAE authority for onward transmission to the IRS. A holder of Notes issued by the Issuer that fails to provide the required information to the Issuer may be subject to the 30 per cent. withholding tax with respect to any payments directly or indirectly attributable to United States sources and the Issuer might be required to redeem any Notes held by such holder. On 17 June 2015 an intergovernmental agreement was entered into between UAE and the US in respect of FATCA which agreement was enacted into UAE law as of 01 July 2014 and was ratified pursuant to Federal Law No. 9 of 2016 and establishes the framework for the exchange of information between reporting UAE financial institutions (“Reporting UAE FIs”) authority to the IRS. The UAE Ministry of Finance (in its capacity as the UAE competent authority) issued guidance on the UAE-US IGA on 6 July 2015 (“Guidance Notes”). Although the Issuer will attempt to satisfy any obligations imposed on it to avoid the imposition of such withholding tax, no assurance can be given that the Issuer will be able to satisfy such obligations. If the Issuer becomes subject to a withholding tax as a result of FATCA, the return on some or all Notes issued by the Issuer may be materially and adversely affected. In certain circumstances, the Issuer may compulsorily redeem some or all of the Notes held by one or more holders and/or may reduce the redemption proceeds payable to any holder of Notes.

Organisation for Economic Co-operation and Development (“OECD”)

Drawing extensively on the intergovernmental approach to implementing the United States Foreign Account Tax Compliance Act, the OECD developed the Common Reporting Standards (“CRS”) to address the issue of offshore tax evasion on a global basis. Aimed at maximising efficiency and reducing cost for financial institutions, the CRS provides a common standard for due diligence, reporting and exchange of financial account information. Pursuant to the CRS, participating jurisdictions obtain from reporting financial institutions, and automatically exchange with exchange partners on an annual basis, financial information with respect to all reportable accounts identified by financial institutions on the basis of common due diligence and reporting procedures. Jersey has implemented the CRS by the Taxation (Implementation) (International Tax Compliance) (Common Reporting Standard) (Jersey) Regulations 2015. As a result, the Issuer is required to comply with the CRS due diligence and reporting requirements, as adopted by Jersey. Jersey has committed to a common implementation timetable which has seen the first exchange of information in 2017 in respect of accounts open at and from the end of 2015, with further countries committed to implement the new global standard. Holders of the Notes may be required to provide additional information to the Issuer to enable the Issuer to satisfy its obligations under the CRS. Failure to provide requested information may subject an Investor to liability for any resulting penalties or other charges and/or mandatory redemption of the Notes.

Base Erosion and Profit Shifting: The law and any other rules or customary practice relating to tax, or its interpretation in relation to the Issuer, its assets and any investment of the Issuer may change during its life. In particular, both the level and basis of taxation may change. In particular, the outcome of the on-going global Base Erosion and Profit Shifting (“BEPS”) project could substantially affect the tax treatment of the Issuer. Additionally, the interpretation and application of tax rules and customary

practice to the Issuer, its assets and Investors by any taxation authority or court may differ from that anticipated by the Issuer. Both could significantly affect returns to Investors.

EACH INVESTOR IS STRONGLY URGED TO CONSULT ITS OWN TAX ADVISOR WITH RESPECT TO ALL ASPECTS OF THE TAX TREATMENT OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF ANY NOTES, INCLUDING THE ALLOCATION OF THE PURCHASE PRICE AMONG THE ASSETS HELD BY THE ISSUER AND THE TAX TREATMENT OF THE NOTES IN THE INVESTOR'S PARTICULAR TAX JURISDICTION.
